Life in the New Normal: Microorganisms and our Environment

Friday, June 26, 2020 | 3 – 4 pm

Microorganisms play an important role in sustaining life, as Louis Pasteur once said “Life would not long remain possible in the absence of microbes”. COVID-19 has spread the fear of microorganisms and encouraged us to live a microbe free life. In these times of fear, it is important to discuss the value of microbial services in supporting life on this planet alongside the hazards posed by viruses. Catch us live as we converse with leading ladies in the field of microbiology and biotechnology in Pakistan: Dr. Shaper Mirza, Dr. Azra Yasmin, and Dr. Sajida Rasheed. The session will be moderated by Dr. Fozia Parveen, Post-doctoral Fellow and Faculty at the Centre for Water Informatics and Technology (WIT).

Dr. Shaper Mirza
Associate Professor,
Department of Biology,
Syed Babar Ali School of Science
and Engineering, LUMS

Dr. Azra Yasmin
Professor and Chairperson,
Department of Biotechnology,
Fatima Jinnah Women University

Dr. Sajida Rasheed
Assistant Professor,
Department of Biotechnology,
University of Kotli, AJK

Dr. Fozia Parveen
Fellow and Faculty,
Centre for Water Informatics and Technology,
Syed Babar Ali School of Science
and Engineering, LUMS

Registration: You can watch this session live on WIT's Facebook Page <https://web.facebook.com/wit.lums/> and the LUMS Facebook page <https://web.facebook.com/lahoreuniversityofmanagementsciences/> as well.
